

FACT SHEET

XFP-220 Mechanical Foot Pedal

Key Features

- Constructed from Aluminium with Steel plate components
- Built in pedal stops to ensure no cable over travel, to maximise overall life span
- Multiple cable entry points
- Built in throttle return spring

Suitable for use on:

- Trucks, buses, agriculture, mining, and construction equipment

Application

- Is a direct replacement for Morse / Teleflex foot pedals
- The unique design allows cable entry from any direction (360°) in a vertical plane
- The Multiflex Foot Pedal Cable

Multiflex Foot Pedal Cable

- The Multiflex Foot Pedal Cable is available in two styles:
 - Part Number 4057 is a cable with clap hubs on each end
 - Part Number 4059 is a cable with clamp hub on one end and bulkhead on the other
- Cables have 2" travel
- Cables built with M6 x 1.0 threads
- These cables are for pull ONLY operation
